

KANDULA SOWMYA

kandulasowmya19@gmail.com | +91-6305691447 | [LinkedIn](#) | [GitHub](#) | Visakhapatnam, India

Final-year CSE student (CGPA 9.2) with hands-on experience building and deploying full-stack web applications using React.js, Flutter, Python, Node.js, and PostgreSQL. Passionate about writing clean code, solving real-world problems, and contributing meaningfully in collaborative team environments.

EDUCATION

B.Tech, Computer Science & Engineering | Vignan's Institute of Information Technology Sep 2023 – Apr 2026

CGPA: 9.2 / 10 | Relevant Coursework: Data Structures & Algorithms, OOP, System Design, Databases

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), Java, TypeScript, HTML5, CSS3

Frontend: React.js, Next.js, Flutter, Tailwind CSS, Zustand / Context API, SSR / CSR, Responsive Design

Backend: Node.js, Express.js, Flask, FastAPI, REST API Design, Async Processing

Databases: MySQL, PostgreSQL (Supabase), MongoDB, PL/pgSQL, SQL

AI & LLMs: Groq LLM API, OpenAI API, Prompt Engineering, LLM Integration, AI Workflows

Cloud & Tools: Docker, Git, GitHub, Vercel, Microsoft Azure, Stripe

PROJECTS

ArvyaX Journal — AI-Powered Journaling App | React.js · Node.js · Express · Groq LLM API · Docker

[GitHub](#) | [Live Demo](#)

- Integrated Groq LLM API with structured prompt engineering to detect user emotions and surface personalised AI-driven insights across persistent journaling sessions.
- Built scalable REST API with Node.js/Express handling AI inference workflows; containerised with Docker and deployed on Render with independent frontend and backend services.
- Implemented real-time streamed AI response handling on React frontend with Context API state management for a smooth, production-ready UX.

Golf Charity Subscription Platform | Next.js · Supabase · PostgreSQL · Stripe · PL/pgSQL

[GitHub](#) | [Live Demo](#)

- Built end-to-end with Next.js (SSR/CSR), Stripe billing webhooks, Tailwind CSS component library, and PL/pgSQL database triggers for business logic; deployed on Vercel with performance optimisation.
- Designed relational PostgreSQL schema, implemented structured input validation, and built an automated monthly draw engine with secure winner verification.
- Integrated Supabase Row Level Security policies to enforce data access control and ensure user-level data isolation across the platform.

INTERNSHIPS

Frontend Development Intern | IBM Edunet Aug 2025 – Oct 2025

- Delivered clean, component-based code in a 6-week production-style workflow; participated in code reviews, practiced structured architecture, and met strict project deadlines consistently.
- Collaborated with a cross-functional team to build responsive UI components, integrating design specifications into functional and accessible web interfaces.

Microsoft Azure Intern | Microsoft Elevate (via AICTE Portal) Jan 2026 – Feb 2026

- Completed Azure cloud program covering compute, storage, and deployment pipelines; earned certifications in Azure Cloud Computing and Architecting Cloud Solutions.
- Gained practical exposure to cloud infrastructure design, resource management, and deploying scalable applications on Microsoft Azure services.

CERTIFICATIONS & PROBLEM SOLVING

- DataCamp — AI Fundamentals | Google — Introduction to SQL, Responsible AI | NPTEL — Programming in Java
- Cisco — JavaScript Essentials 1 & 2, Python Essentials 1 & 2 | Infosys Springboard — Azure Cloud Computing, Frontend Development Journey
- Actively solving Data Structures & Algorithms problems on LeetCode to strengthen logical thinking and coding efficiency.
